WHAT MEN'S CLUB MEANS TO ME

Men's Club provides the opportunity for all men within our congregation to become involved with our community through a broad range of activities, mostly involving food, and enables the development of strong relationships that might not have otherwise occurred. It's all about bringing people together, under a Jewish umbrella, and fostering appreciation of our religion, our culture, Israel and our broader community.

REASON FOR THE AWARD

At Adath Israel, we give this award to a man who has made an impact on the entire community. Joe Singer embodies Conservative Judaism's love of both Torah and the land of Israel. He regularly attends morning Minyans and Sabbath services and has led the World Wide Wrap. There is not a leadership role at Adath Israel he has not undertaken, including President of the Congregation, and has served in each of these positions with the utmost competence, caring, and inclusion.
