WHAT MEN'S CLUB MEANS TO ME

The SJMC is a place where club members have an opportunity to give back something to the Jewish community through numerous civic endeavors.

REASON FOR THE AWARD

Don Weisenstein has been a key figure in the relative success of the South Jersey Men's Club and offered leadership as our president when the club needed an experienced and skilled person to fill the position. His positive personality gets the most out of the men he leads. He not only attracts men to join the club, but is instrumental in encouraging men to remain active in the club. Don no longer serves as our president, yet he is even more active as an ex officio.

His willingness to take initiative in events and programming has led to the creation of two important and popular activities...a fantasy football league and a "task master " chart that defines roles and responsibilities of all the functions of the club and the men assigned to fill these roles. All in all Don's personality, energy, administrative and organizational skills qualify him to serve as our man of the year.
